*\*\*\* Criminal Records Check\*\*\**

*The Liberal Catholic Apostolic Church ensures as far as possible, that all who serve with us have revealed anything and everything that may affect their propriety and reputation.*

*To that end, we check Criminal Records using the CRB check in the United Kingdom as well as the various schemes of the European Countries and American States or other nation as appropriate.*

*We will not allow anyone to work with us where we know of any situation, present or historic, which may impinge on the total respect and security of all they may come into contact with.*

*Where possible, we display these certificates. There are some circumstances, however, where it is inappropriate to display the clearance, for example, some disclosures display social security numbers, dates of birth, addresses etc.*

*We do not display the results where identity theft or other security issues may be present.*

*We are not showing the results in this instance. Those with legitimate reason to check the suitability of this clergy member should make email or written request to the church head office.*
